Перевод: Russian to English by jost: File size. 15.8MB. English (US) to Russian by johst: 1.3MB.Q: Can't restore database structure I have a backup of my database on SQL Server. I'm trying to restore it with ALTER RESTORE DATABASE [DatabaseName] FROM DISK = 'C:\somefolder\backup.bak' But it raises the following error Msg 8973, Level 16, State 9, Line 1 Cannot open backup device 'C:\somefolder\backup.bak' with the following error message : 'Access is denied.'. A: From SQL Server Books online: ... to specify the directory or file location of the backup file, you must use the syntax: . Therefore, if you want to restore the backup using the full path, you will have to supply the full path to your restore statement. (Note: There is a reference to this in the Books online but it has not been updated since 1999. Its still 79a2804d6b
